Run Kubernetes Without the Operational Burden

Our SaaS Management Plane handles everything so you don’t have to.

“...to market quickly, the last thing we needed to worry about was running Kubernetes 24x7, managed, maintained, and upgraded. Platform9 solved that problem for us with their SLA-backed managed service”
- Ravi Ravichandran, VP Cloud Platform Engineering and Devops

Fully-automated Day-2 Operations With 99.9% SLA

Platform9 Managed Kubernetes (PMK) is the only Kubernetes service that ensures fully automated Day-2 operations with 99.9% SLA on any environment: in data centers, public clouds, or at the edge.

Key Capabilities

1-click Upgrades
- Easily upgrade multiple clusters no service interruption.

Instant Security Patches
- Automatically applied to all of your clusters.

Managed Apps
- Built-in Prometheus, Fluentd and pre-configured dashboards.

Remote Monitoring & Healing
- 24x7x365 with auto-healing of the control plane.

Central Management
- Shared visibility & control across all clusters.

Instant Deployment
- Spin up a cluster in <5 minutes on any public cloud and private infrastructure.

Guaranteed 99.9% SLA, Anywhere
**About Platform9:**
Platform9 (platform9.com) delivers a SaaS-managed hybrid cloud solution that turns existing infrastructure into a cloud, instantly. We help enterprises drive digital transformation by enabling them to manage VMs, Containers and Serverless Functions on ANY infrastructure — on-premises, in public clouds, or at the edge – with a self-service, simple and unified experience. The company is headquartered in Sunnyvale, CA, and is backed by Redpoint Ventures, Menlo Ventures, Canvas Ventures, and HPE.

**How Our SaaS Management Plane Works**

Our unique SaaS Management Plane remotely monitors, optimizes and heals your Kubernetes clusters and underlying infrastructure, so you can confidently run production-grade Kubernetes, anywhere.

**Benefits**

- Works with your existing public, bare metal, edge infrastructure
- Improves Developer Productivity for cloud-native apps
- Helps you run Kubernetes without the learning curve
- Eliminates operational complexity

**80%**
80% faster time to market

**50%**
50% cost savings

**99.9%**
99.9% uptime
